

UPDATES AND DEVELOPMENTS

## Clinic Transition & Continued Partnership with Metropolitan ED

La Casita has officially transitioned to its new home in the ambulatory clinic at Metropolitan Hospital! There have been two successful clinic sessions since the move. We anticipate that the new location, the continued efforts of our community outreach team and the ED referral program will allow us to increase the number of patients seen per clinic session. Clinic hours are Saturdays from 8AM-5PM.

## Community Outreach

On May 5<sup>th</sup>, our volunteers partnered up with Shop Healthy Harlem, a NYC Department of Health organization that increases access to healthy foods, to promote La Casita. Volunteers were able to engage with the community by playing games, giving out water bottles, bags and bananas. They shared information about the services we provide and were able to sign up 4 patients for the following clinic session!
