#### UPDATES AND DEVELOPMENTS

## Community Outreach

On June 23<sup>rd</sup>, La Casita partnered up with Healthy Harlem, an innovative healthy living initiative designed to serve the community at scale. Under the guidance and supervision of a NYP-Weil Cornell nurse, volunteers were able to conduct blood pressure and reading glasses screenings. Members of our community outreach team, Jessica Palmer and Samantha Golden, were also on site engaging with the community and sharing information about the services provided by the clinic. We look forward to participating in more events in the community that seek to promote health and wellness and continue increasing awareness of La Casita!
